

OneApp Facility

OneApp Facility is Sy.Med’s solution for centralized facility data management. It integrates with our OneApp Pro physician credentialing software to eliminate paperwork through automated forms completion. OneApp Facility enables your organization to manage details critical to facility operations, compliance, and decision-making.

Track Critical Facility Details

OneApp Facility’s screens include licenses, officers, accreditations, ownership, insurance, investments, equipment, lab services, payers, and more.

Equipment and Vehicles	Own	Rent	Purchase Date
Wall Sphygmomanometer	<input checked="" type="checkbox"/>	<input type="checkbox"/>	8/22/2007

Form Completion

Use OneApp Facility to automatically complete any form and eliminate the mistakes, time, and difficulties associated with completing your facility forms by hand.

Process Simplification

Simplify and organize your facility data gathering, document management, and reporting processes using the productivity tools in OneApp Facility such as alerts, workflow tracking, user customization, and reports.

Performance Improvement

Achieve your efficiency and compliance goals using OneApp Facility with our Data Export Tool, Audit Trail, Document Manager, Automated Email Completion tool, and our HR data management software.

Screens allow at-a-glance review of a single record and multiple records in both list and detail views.
